
Index to feature articles Volume 164—Year 1980

Chemicals and chemistry	Page	Issue
Appropriate changes in process chemistry can help to increase operating efficiency—John G. Penniman	40	Aug. 30
Buyers' guide to papermaking chemicals	42	Aug. 30
Calcium carbonate-alkaline size process offers benefits in paper manufacturing—John G. Penniman	34	Aug. 15
Chemical outlook: Supply and demand for paper chemicals should remain stable for next few years; prices are up again—Jessica Yavitz	33	Aug. 30
Five steps to chemistry optimization and on-line control—John G. Penniman	48	Jan. 30
New wet end tools help chemists get the job done—John G. Penniman	66	Feb. 29
Retaining the strength of secondary fibers with alkaline calcium carbonate fillers—John C. Williams	33	Nov. 30

Conference reports		
API's 1980 survey: paper industry will stay strong—Rafael A. Suarez Jr.	Cover	Jan. 15
API's Paper Week—annual presentation of leaders in business, government & science—*PTJ* Staff	36	April 15
Coal-derived fuel: key to solving energy woes (Part 2)—Neal Lipschutz	32	Feb. 15
Corrugated box industry expects technical advances, efficiency increases in 1981—William Keenan Jr.	32	Dec. 15
Efficient energy management in the mill is the focus of TAPPI engineering conference (Part 1)—Neal Lipschutz	30	Feb. 15
TAPPI 1980 annual meeting highlights new prospects for energy conservation—William Keenan Jr.	41	May 15

Economics, statistics & trends		
Analyst reports balanced demand/supply situation for Canadian paper industry—Robin B. Gilbert	24	Dec. 30
Capital outlays by U.S. paper industry in 1981 will rise 9.3% to $5.6 billion—*PTJ* Staff	26	Dec. 30
Chemical outlook: Supply and demand for paper chemicals should remain stable for next few years; prices are up again—Jessica Yavitz	33	Aug. 30
Corrugated box industry expects technical advances, efficiency increases in 1981—William Keenan Jr.	32	Dec. 15
Dept. of Commerce forecasts 9% gain for U.S. packaging industry in 1980.—Jeremiah E. Flynn	25	March 30
Environment vs. the economy: the high price of government over-regulation—William J. Koslo	18	July 30
Impact of an expanding export market on the distribution of paper stock—William A. Gleason	36	May 15
Impact of North American timber supply on innovations in paper technology—G. E. Styan	25	May 15
North American pulp production up; decline seen in Scandinavian output—Svein Dolven	64	June 30
Papermakers escape economic slide but forest products hit 'rock bottom'—Jeremiah E. Flynn	25	June 30
Perspective on the economic posture of the pulping industry in the U.S.—Jeremiah E. Flynn	18	March 15
Pessimism mars the long-term economic outlook for the major European nations—*PTJ* Staff	29	Dec. 30
Recession forecast heads FBA list of corrugated box industry concerns—William Keenan Jr.	22	July 30
Recession weakens many paper markets; slowdown in production is widespread—Jon Fleming	17	July 30
Soaring costs to Canadian producers may prompt review of 1984 energy goal—Jon Fleming	25	June 15
Strong economic rebound is projected for papermakers in second half of 1981—Jeremiah E. Flynn	19	Dec. 30
'Super-news' brightens profit outlook for North American newsprint producers—Brian F. Topp	22	Oct. 30
The 'Top 50' papermakers (ranked in terms of papermaking sales)	26	June 30
Who's who in North American Papermaking	40	June 30

Energy management		
An analysis of energy-saving design factors in press section technology—Guenter Stotz	47	Sept. 15
Coal-derived fuel: key to solving energy woes (Part 2)—Neal Lipschutz	32	Feb. 15

Efficient energy management in the mill is the focus of TAPPI engineering conference (Part 1)—Neal Lipschutz ..... 30 Feb. 15
Finch, Pruyn looks for fuel savings boost with bark dryer/bark boiler installation—William Keenan Jr. ..... 49 Nov. 15
Fluidized-bed pyrolysis system converts agricultural waste into storable energy—Herbert M. Kosstrin ..... 38 Sept. 15
Geothermal resources—an energy source for the U.S. pulp and paper industry—J. H. Howard and J. V. Davey ..... 33 Jan. 30
Government and industry cooperation can bring energy goals within reach—William Keenan Jr. 32 Aug. 15
How the U.S. forest products industry can escape the national energy crisis—Gardiner L. Tucker 32 March 30
Industry leaders make progress eport on a major energy conservation study—Neal Lipschutz .. 56 Feb. 29
It's time to test your energy I.Q.—W. R. Clontz 33 Oct. 30
Overview of Great Northern Nekoosa's energy strategy for the next decade—Robert Hellendale 25 Aug. 15
Papermakers take on the energy problem with a close look at alternative sources—William Keenan Jr. ..... 46 Dec. 15
Soaring costs to Canadian producers may prompt review of 1984 energy goal—Jon Fleming ... 25 June 15
TAPPI 1980 annual meeting highlights new prospects for energy conservation—William Keenan Jr. ..... 41 May 15

Environmental control

Accuracy of UVT contributes to water treatment efficiency at Androscoggin—Jeremiah E. Flynn 28 Sept. 30
Environment vs. the economy: the high price of government over-regulation—William J. Koslo 18 July 30
Federal legislation for timberlands poses threat to future wood supply—Jon Fleming ..... 40 April 30
Government control of hazardous waste—past, present, and future—Edmund B. Frost ..... 38 Jan. 30

Expansions and modernizations

Advanced technology and efficiency mark IP's greenfield mill project in Mansfield, La.—Jessica Yavitz ..... 24 March 15
Boise Southern's $140-million project jumps newsprint capacity by 530 tpd—Fred White .. 40 Dec. 15
Bowater boosts newsprint output 31% and goes on stream with Bel Baie II (Part 1)—Jeremiah E. Flynn ..... 24 Feb. 15
Bowater boosts newsprint output and goes on stream with Bel Baie II (Part 2)—Jeremiah E. Flynn ..... 46 Feb. 29
Champion completes Courtland expansion with startup of new Beloit Bel Baie II (Part 1)—Rafael A. Suarez Jr. ..... 20 June 15
Champion completes Courtland expansion with startup of new Beloit Bel Baie II (Part 2)—Rafael A. Suarez Jr. ..... 70 June 30
Consolidated Papers boosts output 20% with the start-up of Voith fourdrinier—Jessica Yavitz . 24 July 15
Finch, Pruyn looks for fuel savings boost with bark dryer/bark boiler installation—William Keenan Jr. ..... 49 Nov. 15
Fraser hikes coated paper production with $42-million Madawaska expansion—William Keenan Jr. ..... 34 Sept. 15
Jagenberg dedicates $4.5 million plant in Enfield, Conn., for sales and service—Jeremiah E. Flynn 26 Nov. 30
Mead takes a new stand beyond the forest—Jacqueline Cox ..... 24 Nov. 30
Midtec goes on stream with No. 6 PM; targets output for coated marketplace (Part 1)—Jeremiah E. Flynn ..... 26 Oct. 30
Midtec goes on stream with No. 6 PM; targets output for coated marketplace (Part 2)—Jeremiah E. Flynn ..... 41 Nov. 15
Nekoosa's Ashdown expansion complete; fine paper capacity now at 330,000 tpy (Part 1)—Jeremiah E. Flynn ..... 44 April 15
Nekoosa's Ashdown expansion complete; fine paper capacity now at 330,000 tpy (Part 2)—Jeremiah E. Flynn ..... 35 April 30
Potlatch looks for a production climb to 70,000 tpy with new tissue machine—Jeremiah E. Flynn . 28 Nov. 30
Profile of Papriformer installations in Western European pulp & paper mills—Giovanni Deperis ..... 58 Feb. 29

International

Five-year growth to 11.3 million tpy projected for Swedish pulp industry—Jeremiah E. Flynn ... 26 July 30
Impact of an expanding export market on the distribution of paper stock—William A. Gleason 36 May 15
North American pulp production up; decline seen in Scandinavian output—Svein Dolven ..... 64 June 30
Perspectives on Western European printing & writing paper markets—Jeremiah E. Flynn ..... 31 Jan. 15
Pessimism mars the long-term economic outlook for the major European nations—*PTJ* Staff ... 29 Dec. 30
Profile of Papriformer installations in Western European pulp & paper mills—Giovanni Deperis ..... 58 Feb. 29

Maintenance

C-E workshops take problem solving approach to recovery boiler operations—William Keenan Jr. 62 Sept. 15
Circuit design for corrosive environments should cut costs and minimize downtime—R. A. Pankowski ..... 42 Feb. 29
Electric vs. internal combustion lift trucks: how to choose the right one for your plant—Jacqueline Cox ..... 25 July 30
Getting the most out of dryer felts by a proper approach to installation—Thomas A. Butler .. 51 April 15
Guidelines for improving effectiveness of mill reciprocating air compressors—John H. Hensley 58 Sept. 15
Hoerner Waldorf makes abrasive shift and cuts roll grinding costs by 60%—Jeremiah E. Flynn .. 76 June 30
Troubleshooting dryer-fabric alignment problems—and remedies to resolve them—Thomas A. Butler ..... 30 May 30

Paper and board manufacture

An analysis of energy-saving design factors in press section technology—Guenter Stotz ..... 47 Sept. 15
Calcium carbonate-alkaline size process offers benefits in paper manufacturing—John G. Penniman ..... 34 Aug. 15
C-E workshops take problem solving approach to recovery boiler operations—William Keenan Jr. 62 Sept. 15
Guidelines for improving effectiveness of mill reciprocating air compressors—John H. Hensley 58 Sept. 15
Impact of North American timber supply on innovations in paper technology—G. E. Styan ... 25 May 15
Is today's suction press a dinosaur in the papermaking production cycle?—Foster P. Doane Jr. .. 40 Jan. 30
An overview of combustion technology available to the pulp and paper industry (Part 3)—W. M. Newby ..... 30 June 15
Pretreatment of wood chips can retard deterioration during woodyard storage—Clarence W. Scott . 20 Aug. 15
Papermaker's guidelines for effective rotary kiln alignment and maintenance—Donald P. Giencke ..... 34 Oct. 15
Papermaker's guideline to selection and operation of pressure vessels—Jacqueline Cox ..... 24 Sept. 30
Report on the use of bagasse furnish for newsprint in Peru's Trupal mill—Juhani Pakkala ..... 35 Nov. 15

(Continued on next page)

(*Continued from preceding page*)

Review and analysis of past concepts explodes supercalendering 'mystique'—Jeremiah E. Flynn ..... 28 July 15
Supercalendering: a technological view of what can be expected by papermakers—Thomas S. Greiner ..... 27 Oct. 15
Temperature controlled rolls—one key to a successful calendering operation—D. A. D'Amato 41 Oct. 15

Primary & secondary fibers

Recycled paperboard producers—caught in the crossfire of the marketplace—Raymond E. Cartledge ..... 29 March 15
Report on a high-consistency deinking process for mixed secondary fibers—Holzwirt S. Fischer . 54 Sept. 15
Retaining the strength of secondary fibers with alkaline.calcium carbonate fillers—John C. Williams ..... 33 Nov. 30

Process controls and instrumentation

Advancement in clothing design spurs trend toward double-felt pressing—Stephen J. Sassaman ... 30 April 30
Analysis of dryer felt alignment—key to effective paper machine production—Thomas A. Butler 27 June 15
Analyzer is used to automate control of chlorination at Port Angeles mill—Gregory E. Smith and Fred H. Royce ..... 29 Jan. 30
Circuit design for corrosive environments should cut costs and minimize downtime—R. A. Pankowski ..... 42 Feb. 29
Digital facsimile network closes gap in Great Northern data processing—Jeremiah E. Flynn 30 March 30
Energy savings impact of computer control systems on batch digesters—Robert P. Powell ..... 19 Sept. 30
Getting the most out of dryer felts by a proper approach to installation—Thomas A. Butler .. 51 April 15
Improving paper machine performance by automatic stock-freeness control—Richard L. Glendye 44 Dec. 15
Integrated process control systems enhance mill ROI capabilities—Ole-Kristian Fadum ..... 26 Jan. 15
Keyes Fibre uses stretch-wrap system for package protection & space saving—Fred White ..... 40 Nov. 30
An overview of combustion technology available to the pulp and paper industry (Part 1)—W. M. Newby ..... 30 May 15
An overview of combustion technology available to the pulp and paper industry (Part 2)—W. M. Newby ..... 33 May 30
Programmable controllers—a market threat to micro- /mini-computers?—Jack A. Blaeser ... 27 Sept. 30
Resolving problems caused by aspenwax in pulping, bleaching, and papermaking—T. T. Collins Jr. and Jack Mulyk ..... 25 March 15
Steam pulp drying process cuts energy costs $10/ton—Rafael A. Suarez Jr. ..... 28 April 30
Troubleshooting dryer-fabric alignment problems—and remedies to resolve them—Thomas A. Butler ..... 30 May 30
Wood-chip freeze conditioning agents can effectively reduce pulp mill losses—R. J. Novotny 36 Nov. 30

Pulping and bleaching

Bergstrom finds 'reverse cleaning' answer to lightweight contaminants—James Clay ..... 28 Aug. 15
Bleach plant control optimization with a dual chlorine sensor system—Ram M. Gupta ..... 30 July 15
Five-year growth to 11.3 million tpy projected for Swedish pulp industry—Jeremiah E. Flynn ... 26 July 30
Improving paper machine performance by automatic stock-freeness control—Richard L. Glendye 44 Dec. 15
North American pulp production up; decline seen in Scandinavian output—Svein Dolven ..... 64 June 30
Resolving problems caused by aspenwax in pulping, bleaching, and papermaking—T. T. Collins Jr. and Jack Mulyk ..... 25 March 15
Steam pulp drying process cuts energy costs $10/ton—Rafael A. Suarez Jr. ..... 28 April 30
Wood-chip freeze conditioning agents can effectively reduce pulp mill losses—R. J. Novotny 36 Nov. 30

Miscellaneous

Nekoosa Papers president Gerard E. Veneman named Papermaker of the Year—Jacqueline Cox Cover Dec. 15

Author index to 1980 features

Blaeser, Jack A.—Programmable controllers—a market threat to micro-/mini-computers? Sept. 30, p. 27

Butler, Thomas A.—Analysis of dryer felt alignment—key to effective paper machine production. June 15, p. 27
———Getting the most out of dryer felts by a proper approach to installation. April 15, p. 51
———Troubleshooting dryer-fabric alignment problems—and remedies to resolve them. May 30, p. 30

Cartledge, Raymond E.—Recycled paperboard producers—caught in the crossfire of the marketplace. March 15, p. 29

Clay, James—Bergstrom finds 'reverse cleaning' answer to lightweight contaminants. Aug. 15, p. 28

Clontz, W. R.—It's time to test your energy I.Q. Oct. 30, p. 33

Collins, T. T. Jr.—and Jack Mulyk—Resolving problems caused by aspenwax in pulping, bleaching, and papermaking. March 15, p. 25

Cox, Jacqueline—Electric vs. internal combustion lift trucks: how to choose the right one for your plant. July 30, p. 25
———Mead takes a new stand beyond the forest. Nov. 30, p. 24
———Nekoosa Papers president Gerard E. Veneman named Papermaker of the year. Dec. 15, Cover
———Papermaker's guideline to selection and operation of pressure vessels. Sept. 30, p. 24

D'Amato, D. A.—Temperature controlled rolls—one key to a successful calendering operation. Oct. 15, p. 41

Davey, J. V.—and J. H. Howard—Geothermal resources—an energy source for the U.S. pulp and paper industry. Jan. 30, p. 33

Deperis, Giovanni—Profile of Papriformer installations in Western European pulp & paper mills. Feb. 29, p. 58

Doane, Foster R. Jr.—Is today's suction press a dinosaur in the papermaking production cycle? Jan. 30, p. 40

Dolven, Svein—North American pulp production up; decline seen in Scandinavian output. June 30, p. 64

Fadum, Ole-Kristian—Integrated process control systems enhance mill ROI capabilities. Jan. 15, p. 26

Fischer, Holzwirt S.—Report on a high-consistency deinking process for mixed secondary fibers. Sept. 15, p. 54

Fleming, Jon—Federal legislation for timberlands poses threat to future wood supply. April 30, p. 40
———Recession weakens many paper markets; slowdown in production is widespread. July 30, p. 17
———Soaring costs to Canadian producers may prompt review of 1984 energy goal. June 15, p. 25

Flynn, Jeremiah E.—Accuracy of UVT contributes to water treatment efficiency at Androscoggin. Sept. 30, p. 28
———Bowater boosts newsprint output 31% and goes on stream with Bel Baie II (Part 1). Feb. 15, p. 24
———Bowater boosts newsprint output and goes on stream with Bel Baie II (Part 2). Feb. 29, p. 46
———Dept. of Commerce forecasts 9% gain for U.S. packaging industry in 1980. March 30, p. 25.
———Digital facsimile network closes gap in Great Northern data processing. March 30, p. 30
———Five-year growth to 11.3 million tpy projected for Swedish pulp industry. July 30, p. 26
———Hoerner Waldorf makes abrasive shift and cuts roll grinding costs by 60%. June 30, p. 76
———Jagenberg dedicated $4.5 million plant in Enfield, Conn., for sales and service. Nov. 30, p. 26
———Midtec goes on stream with No. 6 PM; targets output

for coated marketplace (Part 2). Nov. 15, p. 41
_____Midtec goes on stream with No. 6 PM; targets output for coated marketplace (Part 2). Nov. 15, p. 41
_____Nekoosa's Ashdown expansion complete; fine paper capacity now at 330,000 tpy (Part 1). April 15, p. 44
_____Nekoosa's Ashdown expansion complete; fine paper capacity now at 330,000 tpy (Part 2). April 30, p. 35
_____Papermakers escape economic slide but forest products hit 'rock bottom'. June 30, p. 25
_____Perspective on the economic posture of the pulping industry in the U.S. March 15, p. 18
_____Perspectives on Western European printing & writing paper markets. Jan. 15, p. 31
_____Potlatch looks for a production climb to 70,000 tpy with new tissue machine. Nov. 30, p. 28
_____Review and analysis of past concepts explodes supercalendering 'mystique'. July 15, p. 28
_____Strong economic rebound is projected for papermakers in second half of 1981. Dec. 30, p. 19
Frost, Edmund B.—Government control of hazardous waste—past, present, and future. Jan. 30, p. 38

Giencke, Donald P.—Papermaker's guidelines for effective rotary kiln alignment and maintenance. Oct. 15, p. 34
Gilbert, Robin B.—Analyst reports balanced demand/supply situation for Canadian paper industry. Dec. 30, p. 24
Gleason, William A.—Impact of an expanding export market on the distribution of paper stock. May 15, p. 36
Glendye, Richard L.—Improving paper machine performance by automatic stock-freeness control. Dec. 15, p. 44
Greiner, Thomas S.—Supercalendering-a technological view of what can be expected by papermakers. Oct. 15, p. 27
Gupta, Ram M.—Bleach plant control optimization with a dual chlorine sensor system. July 15, p. 30

Hellendale, Robert—Overview of Great Northern Nekoosa's energy strategy for the next decade. Aug. 15, p. 25
Hensley, John H.—Guidelines for improving effectiveness of mill reciprocating air compressors. Sept. 15, p. 58
Howard J. H.—and J. V. Davey—Geothermal resources—an energy source for the U.S. pulp and paper industry. Jan. 30, p. 33

Keenan, William Jr.—C-E workshops take problem solving approach to recovery boiler operations. Sept. 15, p. 62
_____Corrugated box industry expects technical advances, efficiency increases in 1981. Dec. 15, p. 32
_____Finch, Pruyn looks for fuel savings boost with bark dryer/bark boiler installation. Nov. 15, p. 49
_____Fraser hikes coated paper production with $42-million Madawaska expansion. Sept. 15, p. 34
_____Government and industry cooperation can bring energy goals within reach. Aug. 15, p. 32
_____Papermakers take on the energy problem with a close look at alternative sources. Dec. 15, p. 46
_____Recession forecast heads FBA list of corrugated box industry concerns. July 30, p. 22
_____TAPPI 1980 annual meeting highlights new prospects for energy conservation. May 15, p. 41
Koslo, William J.—Environment vs. the economy: the high price of government over-regulation. July 30, p. 18
Kosstrin, Herbert M.—Fluidized-bed pyrolysis system converts agricultural waste into storable energy. Sept. 15, p. 38

Lipschutz, Neal—Efficient energy management in the mill is the focus of TAPPI engineering conference (Part 1). Feb. 15, p. 30
_____Coal-derived fuel: key to solving energy woes (Part 2). Feb. 15, p. 32
_____Industry leaders make progress report on a major energy conservation study. Feb. 29, p. 56

Mulyk, Jack—and T. T. Collins Jr.—Resolving problems caused by aspenwax in pulping, bleaching, and papermaking. March 15, p. 25

Newby, W. M.—An overview of combustion technology available to the pulp and paper industry (Part 1). May 15, p. 30
_____An overview of combustion technology available to the pulp and paper industry (Part 2). May 30, p. 33
_____An overview of combustion technology available to the pulp and paper industry (Part 3). June 15, p. 30
Novotny, R. J.—Wood-chip freeze conditioning agents can effectively reduce pulp mill losses. Nov. 30, p. 36.

Pakkala, Juhani—Report on the use of bagasse furnish for newsprint in Peru's Trupal mill. Nov. 15, p. 35
Pankowski, R. A.—Circuit design for corrosive environments should cut costs and minimize downtime. Feb. 29, p. 42
Penniman, John G.—Appropriate changes in process chemistry can help to increase operating efficiency. Aug. 30, p. 40
_____Calcium carbonate-alkaline size process offers benefits in paper manufacturing. Aug. 15, p. 34
